Carotid Cavernous Fistulas

Carotid cavernous fistulas may be classified on the basis of the **source of their arterial supply** into the following four subtypes:

- (b) main internal carotid artery
- (c) dural branch of the internal carotid artery
- (d) dural branch of the external carotid artery
- (e) dural branches of both the internal and the external carotid arteries.

AFTER EMBOLISATION

Conclusion

- The minimally invasive interventional medicine can be practiced in the private hospitals, in very good and safe conditions, following the european guidelines.
